

# What's your money funding?

**Did you know that Barclays owns Third Energy, the company which is planning to frack in Yorkshire?**

High street banks such as Barclays, HSBC, Natwest, Lloyds and Santander have been investing billions in fossil fuels for decades - using your money to drive irreversible climate change and environmental destruction.

# It's Time to Switch!

If you're a customer of Barclays or other high street banks with dubious investments, the good news is that there are more ethical alternatives. Put your money to work on better things today.
